- Who/what is EUROGI ?
"European Umbrella Organization for GI"
- Association of associations (AM/FM-GIS Belux, Agoria, DDGI (D), Afigeo (F), IRLOGI (IE), SOGI (CH), EARSC, ..., Hexagon, Mallon Technology, ... -> GI users are our members' members
- To represent the GI users to EC
- www.eurogi.org

Introduction

- Creation of different Strategic Policy groups:
 - Portfolio Policy (IE)
 - Portfolio EU (BE)
 - Portfolio Pan European Associations (HU)
 - Portfolio Projects (CH)
 - Portfolio Membership (IT)
 - Portfolio Education and Capacity Building (AT)
 - Portfolio Communications (ES)

Call for participation: president@eurogi.org

MONICA SEBILLO

Monica Sebillo is an Associate Professor in Information Processing Systems at the Department of Computer Science, University of Salerno (Italy). She received the PhD degree in Applied Math and Computer Science. Monica is an ACM senior member and the president of AMFM GIS Italia, member of EUROGI. Her research interests include spatial databases and geographic information systems, Human-GIS interaction, and territorial intelligence services. As GIS Laboratory Director, Monica is involved in international and national research projects and has several collaborations with national and international institutions. She also collaborates with primary and secondary schools to promote geo-education initiatives. Monica is author of more than 100 publications in international journals and conference proceedings.

“During my presentation, I would like to introduce the Focus Group and its aim. In particular, I would like to describe what prompted us to create this group, what activities we want to carry out, and what objectives we have. Finally, I would like to describe how we intend to involve other interested people.”

MARION MURPHY

Marion Murphy is the Managing Director at Mallon Technology Ltd. She has been instrumental in growing the company from a small team to one of the largest GI service providers in Ireland, delivering GI and RS projects for a range of public and private sector clients. Marion holds a BSc in Technology Management and diploma in Management. She is an executive committee member of IRLOGI and represents Mallon as a member of EUROGI.

This presentation is about women in GI from an Irish perspective. The focus of the presentation will be on the visibility of women in senior decision-making roles, why it is important to build equality and representation at a senior level and how we can make it happen.

ANNELIES VAN ALPHEN

Annelies Van Alphen is a team leader at Geo Solutions (Belgium). She has about 16 years of experience in GIS, working for several clients such as Telenet, Digipolis, the Flemish Waterways, Waterlink. She started out as a GIS analyst and developer, towards other roles such as GIS IT architect and team lead. Annelies holds a degree in IT, environmental management and a Msc in Geographical Information Management and Applications.

“I would like to focus my presentation on my experiences starting as a GIS consultant in Belgium and the Netherlands, and to what possibilities and obstacles there might be to reach a senior level. I would love to hear all your advice!”
