

Mobile health

Digital (hard- en software) applications (and devices) that make it possible for the patient, his environment and care providers to collect, consult and interpret information 24/24 7/7 regarding his health and wellbeing.

We have a plan ...

Actiepunt 19: Mobile Health

Verantwoordelijke

Organisatie : FAGG (medical device) + RIZIV (terugbetaling, ...)

Projectleider : extern

Context en doelstellingen

Doelstellingen:

- Een kader creëren, afstemmen en coördineren tussen alle beleidsniveau's van mhealth acties, met het oog om dit zo efficiënt, ruim en administratief eenvoudig mogelijk toe te passen
- Betere gezondheid en comfort van burgers (patiënten en gebruikers) realiseren in de Belgische gezondheidszorg door het faciliteren van effectieve en efficiënte zorgondersteuning gebruik makend van M health toepassingen
- Kader creëren in de zorgsector om Mhealth toepassingen juridisch, financieel en organisatorisch te integreren in de bestaande en nieuwe zorgafspraken
- E-health services mobiel beschikbaar maken
- Kwaliteit en toegankelijkheid van mhealth ondersteunen
- De gebruiker zelf aan het stuur plaatsen van zorg via mhealth-toepassingen
- Een gecoördineerd mhealth-beleid in België realiseren, met een flexibele en administratief eenvoudige toepassing van mhealth in alle regio's

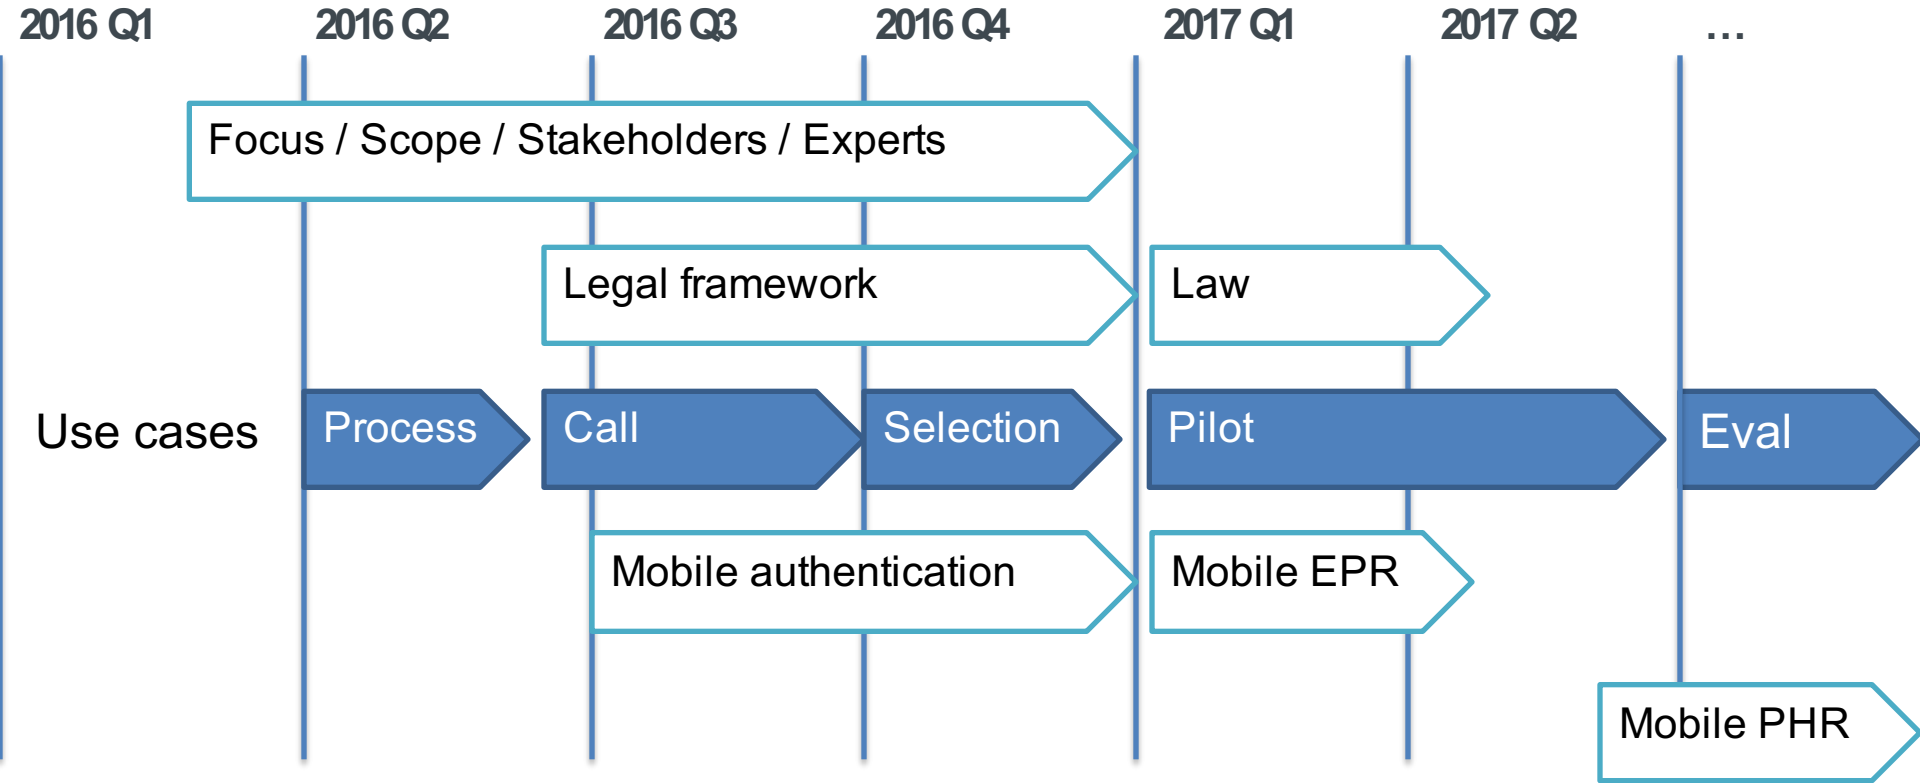

Europe : “EU Member states should ... “

- Develop strategy
- Develop policies
- Evaluate telehealth services
- Address funding and reimbursement

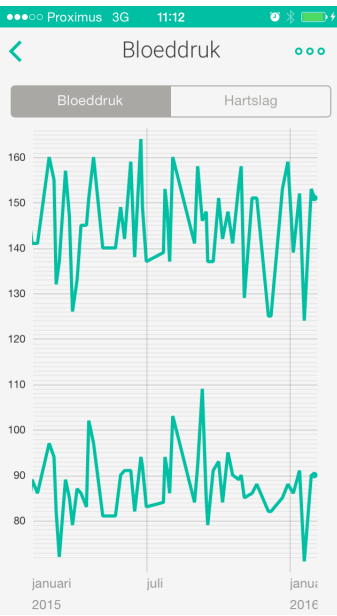

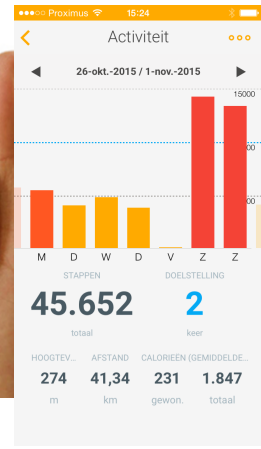

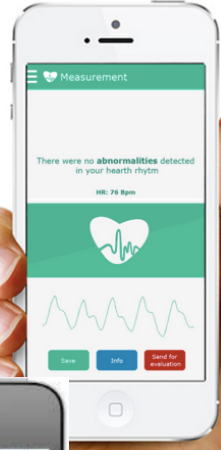

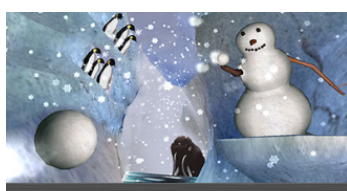

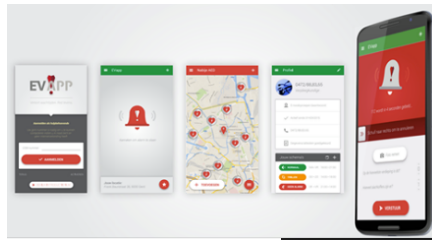

- Address quality, safety, reliability of mobile devices and software
- Address issues on data ownership, privacy
- Address liability, informed consent

- Promote use of mHealth
